<b>Key Improvement Strategies</b>		Is this KIS selected for focus this year?
<b>KIS 1</b> Curriculum planning and assessment	Develop structures and processes for teachers to collaboratively design and implement a shared curriculum scope and sequence and strategies for teaching and learning in literacy across the school that engages and challenges all students (CPA)	Yes
<b>KIS 2</b> Building practice excellence	Build and implement a shared understanding of a Wantirna South PS Pedagogical Model that includes the Practice Principles and evidence-based targeted teaching across the school (BPE)	No

<p>Explain why the school has selected this KIS as a focus for this year. Please make reference to the self-evaluation, relevant school data, the progress against School Strategic Plan (SSP) goals, targets, and the diagnosis of issues requiring particular attention.</p>	<p>The school review and tabled SSP has indicated significant work completed with building practice excellence through engaging PLT's and regular meetings. Therefore in order to continue to improve excellence in teaching and learning through a sequential and consistent approach it was determined that Curriculum Planning and Assessment is a priority for the school. Through consultation with staff and students it was perceived that scope and sequence documents in all areas of literacy will be required to ensure a collaborative and shared whole school approach to the curriculum. During 2018 it was determined that a comprehensive review of the Writing Scope and Sequence document is required to ensure it remains a usable, consistent document and will occur prior to commencing the task to complete documents for all areas of literacy. Investigation in 2018 of current assessment documents eventuated with the school embracing Fountas and Pinnell for 2019.</p> <p>Indicated in the Panorama Report for 2017 across the past 3 years in reading and viewing the target figures of 35% of students across levels receiving above the expected level was not evident. It was determined that some data indicates close correlation to the anticipated outcomes, however is not substantiated. In writing the projected figures of 35% of children across all levels achieving above the expected level was again not displayed in Department reports.</p> <p>Achievements include:</p> <ul style="list-style-type: none"> <li>• A writing scope and sequence document.</li> <li>• Continued growth of students, sometimes up to the projected goal, however not consistently.</li> </ul> <p>Areas considered that still require attention include:</p> <ul style="list-style-type: none"> <li>• Scope and sequence documents for all curriculum areas.</li> <li>• Greater understanding on how to extend students that are working above the expected level.</li> </ul>
<p><b>Goal 2</b></p>	<p>Improve student wellbeing, voice and agency and build school pride.</p>
<p><b>12 Month Target 2.1</b></p>	<p>The 2019, AToSS Parent factor for Student Voice and Agency, Year 5 students, be above 60%.</p>
<p><b>12 Month Target 2.2</b></p>	<p>The 2019, AToSS for student resilience, to be above 60%.</p>
<p><b>12 Month Target 2.3</b></p>	<p>The 2019, AToSS for Student Goal Setting and Sense of Self-Regulation and Confidence to be above 60%.</p>
<p><b>Key Improvement Strategies</b></p>	<p>Is this KIS selected for focus this year?</p>

<b>KIS 1</b> Empowering students and building school pride	Build staff capacity to implement whole school, consistently implemented approaches to improve students' personal and social capabilities, wellbeing, voice and agency.	No
<b>KIS 2</b> Setting expectations and promoting inclusion	Teachers create opportunities to engage students in improving connectedness to peers and classroom behaviour through their involvement in developing a student code of conduct in collaboration with teachers and parents.	Yes
<b>KIS 3</b> Empowering students and building school pride	Build students' capacity to understand, articulate and take responsibility for their own learning and progression and have a voice and agency in school improvement.	No
Explain why the school has selected this KIS as a focus for this year. Please make reference to the self-evaluation, relevant school data, the progress against School Strategic Plan (SSP) goals, targets, and the diagnosis of issues requiring particular attention.	<p>The school review and tabled SSP has indicated significant work completed with has had an impact on the success of the requirement. The data provides a clear view that there has been a decrease in collective efficacy and teacher collaboration. The data from the school review indicates:</p> <ul style="list-style-type: none"> <li>• Collective efficacy in 2017 displayed a factor percentile of 69.6 – a significant decrease.</li> <li>• Teacher collaboration in 2017 the rating displayed a factor percentile of 56.9 – a significant decrease.</li> </ul> <p>Although the evidence indicates a clear decline in teacher collaboration and collective efficacy procedures have occurred to support greater collaboration and clarity with role descriptions to support collective efficacy. Discussion has occurred throughout the year to determine the difference between student voice and student agency. Moving forward, it is determined that student agency will be at the forefront. Students will have greater opportunities to reflect and make decisions on learning in the learning environment. Students will be involved in the development of procedures and policies that impact on learning and student well-being. The School values are evident in all learning environments promoting acceptance of all and provide clear expectations of behaviour within learning environments. The Student Well-being Guidelines document is reviewed each year and circulated to the school community however questions have been raised in relation to the amount of student voice through the document. Therefore it was determined that the document will be revisited with students and new guidelines around wellbeing, student behavior expectations and consequences, along with the school values will occur in 2019.</p> <p>Staff have indicated a clearer understanding of financial resourcefulness will assist with a collective approach behind making decisions that impact on staffing structures and resource allocation across the school, and therefore future place for the school.</p>
